## DETAILED ACTION

### *Drawings*

1. Figures 1-3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### *Specification*

2. The disclosure is objected to because of the following informalities:
- a. In the specification, page 1, lines 15-19: proper reference numbers should be given to the loudspeaker and microphone, respectively;
  - b. In the specification, page 1, lines 23: "3" should be --4--.
  - c. In the specification, page 4, line 8: "receiver electroacoustic transducer" should be --electroacoustic receiver transducer-- for consistency purposes; and
- Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2841

4. Claims 7 and 12 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. In claim 7, line 4: the claim language is confusing because it is not clear if the Applicant is claiming two output channels in addition to the at least one output channel.

b. In claim 12, lines 1-6: the term "respectively" makes the claim language confusing because it is unclear if the Applicant is claiming the channels of both the electroacoustic transmitter transducer and electroacoustic receiver transducer.

Claims 8-11 are rejected to as being dependent on a rejected base claim.

#### ***Allowable Subject Matter***

5. Claim 7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Claims 8-12 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

#### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 disclose related devices.
